ASE Automotive Prep (English and Spanish)

Holding a certification from The National Institute for Automotive Service Excellence (ASE) is a voluntary yet empowering credential for those working in the automotive field. Certification demonstrates your knowledge and commitment to the field and can improve career opportunities and advancement. Certification consists of passing at least one specialty exam and having two years of relevant experience. For more information on ASE certification, go to www.ase.com.

In order to hold an ASE A Series certification, technicians must demonstrate knowledge of the skills necessary to diagnose, service, and repair cars, SUVs and light duty trucks.

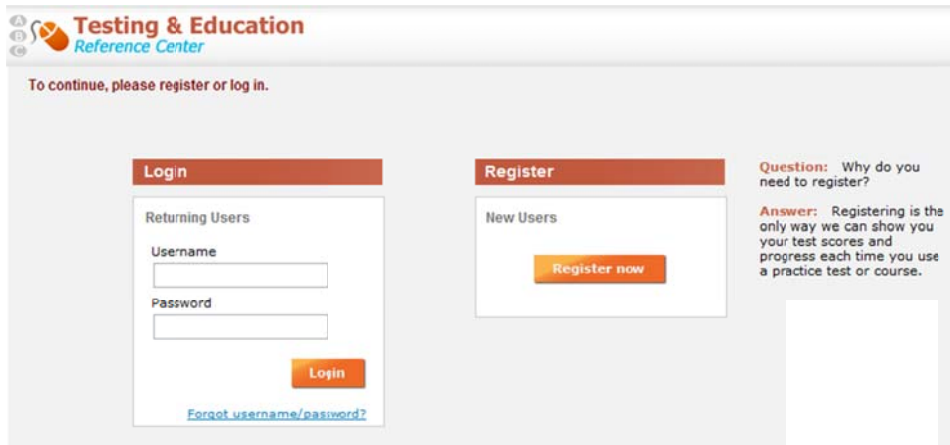

ASE Automotive Technician Test Prep

The Automotive Technician Test Preparation Series is the ideal way to gain the expertise required to pass the ASE exams for both English and Spanish-speaking individuals. Within each task area, you can select one of three study modes: Practice Tests, Sample Tests, or Timed Tests. All tests enable you to gain experience in answering ASE-style questions while simulating actual test-taking conditions and gauging your readiness for the exams. Feedback for each question provides helpful hints, in-depth explanations of both right and wrong answers, plus links to supplemental readings and/or animations/digitized video clips for each task area to ensure mastery. Language options can be switched easily from English to Spanish and back again throughout the usage of the online tool.

Select from the ASE Automotive courses below to begin!

- [A1 Engine Repair](#)
- [A2 Automatic Transmissions and Transaxles](#)
- [A3 Manual Drive Train and Axles](#)
- [A4 Suspension and Steering](#)

**Welcome to the...
Online ASE Technician Test Preparation Series**

Thomson Delmar Learning is pleased to bring you the Online ASE Technician Test Preparation Bilingual Series (English/Spanish). Whether you use this course in its entirety, or in a modular approach, you will be better prepared to meet the challenge of passing your exam the first time around.

Thomson Delmar Learning is committed to the professional development of today's automotive technicians. We recognize the challenges of succeeding in today's complex automotive environment. This outstanding online review course maintains high standards both in content and in presentation. The contributing experience of the technicians and educators who designed this course will help you achieve success!

Language options can easily be switched from English to Spanish and back again throughout the course.

How to use the ASE testing system:

Courses:
Prepare for the test by reading the materials

Tests:
Choose Practice to do an untimed test.
Choose Sample to try a few questions at a time.
Choose Timed to do the full test, with the clock running. (Real ASE tests are timed.)
