DASHBOARD

Unless you are logging in anonymously, you will have your own user profile within your organization's subscription.

When you log in, the dashboard page will load. The left-hand column will give you information about your subscription, and the center column will include messages from your administrator or Techstreet.

The right-hand column – My Activity – is all about you. It shows the last time you logged in, and provides quick access to your recent documents, your Search History, and your Lists.

Welcome to Techstreet Enterprise!

Our new name reinforces our dedication to providing the best balance of power and ease of use in the industry.

The tools you use to search for and access your documents haven't changed. Single-copy document purchasing, if enabled, allows you to supplement your subscription.

SEARCHING

Techstreet Enterprise **searching** ¹ makes it easy to find the documents you're looking for.

The search engine will suggest document numbers and titles from your subscription as you type. Other searches will look across the title, description, and more to find relevant standards.

Once you've run a search, use the **filters** ² on the left to narrow (or broaden) your results until you find what you need. You can even search outside your subscription by unchecking **On Subscription** ³.

The screenshot shows the search results page for the query "bpvc". At the top, there is a search bar with the text "bpvc" and a search button. The navigation menu includes HOME, LISTS, UPDATES, **SEARCH HISTORY** (highlighted with a red circle 1), and BROWSE. Below the search bar, the results are displayed for "Results for 'bpvc'". A message states: "Your search resulted in 11 documents for 'bpvc' amongst current, subscribed documents." There is a "Download" button. Below this, there is a "Filter Your Search" section (highlighted with a red circle 2) and a "Sort By: Relevance" dropdown. The "Filter Your Search" section includes "Search Modifiers" with "On Subscription" (checked, highlighted with a red circle 3) and "Most Recent Documents" (checked). It also includes a "Publication Year" filter with options for 2013 (8 results), 2012 (1), 2011 (1), and 2005 (1). The "Document Status" filter shows "ANSI approved" (1) and "Has redline" (7). The search results list two documents: "ASME BPVC-IX-2013" and "ASME BPVC-IIC-2013". Each document entry includes a star icon, the document title, a brief description, and a "Redlines" link. The "ASME BPVC-IX-2013" entry shows it was published on 07/01/2013 by ASME International with ISBN 9780791834756. The "ASME BPVC-IIC-2013" entry shows it was published on 07/01/2013 by ASME International with ISBN 9780791834534. Both entries have an "ADD NOTE" button.

DOCUMENT DETAIL PAGE

The Document Detail page is where you can download the standard and see important details about the product, like whether or not it's the most recent, and whether or not Redlines are available.

Click on the **Read 4** button, and the standard will be downloaded to your computer. In addition to offering access to the latest edition of the standard, any redlined version will be available here, as well as links to historical editions of the same standard. You can also add notes here using the **Add Note 5** feature.

FILEOPEN

Standards publishers generally require that Digital Rights Management (DRM) software be installed with their documents. The industry standard is FileOpen. FileOpen adds a **watermark 6** (right-hand side) and associates the standard with your computer, so it's only accessible from there.

You can download and install FileOpen from your Dashboard page. At the bottom of the left-hand column, click the **Install FileOpen 7** link to start the installation process. Contact our Customer Service team if you have any trouble installing it.

LISTS

Lists ⁸ are an easy way to group related standards and keep on top of updates or changes to those standards.

For any standard you add to a List, Techstreet Enterprise will send you an email each time it's updated, and we'll automatically add the updated version to your List.

Lists can be private, or you can share them with colleagues in your organization.

SUBSCRIPTION UPDATES

With **Subscription Updates** ¹¹, you can set up an alert to receive an email each time a new or revised document is added to your subscription. It's a great way to keep on top of all the standards available to you through your organization's subscription.

Search for a document...

HOME LISTS **UPDATES** SEARCH HISTORY BROWSE

Home > **Subscription Updates**

Subscription Updates

Subscription Updates is a convenient way to stay informed about new or changed documents within your subscription.

NOTE: Update reporting data is only available beginning June 1, 2012.

Create New Report

Reports allow you view document changes, additions, or both, and may either be viewed online or downloaded as a CSV file to your desktop.

Select report type (new, changed, or both), specify a single publisher or all publishers, and the time-frame covered by the report (last 24 hours, last week, or last month), then click Run Report.

Show me documents from since

Create New Alerts

Alerts allow you to receive periodic notifications of changes or additions to your subscription.

Select the alert frequency (daily, weekly, or monthly), alert type (new, changed, or both), and publisher (all publishers or a specific publisher), then click Create Alert.

Techstreet will alert you automatically according to the specified criteria.
